Archie P. H. Sinaga

Data Analyst | Python, SQL, Tableau | Machine Learning
Palembang, ID | +62 812-5023-3529 | archiesinaga9@gmail.com | linkedin.com/in/archie-ph-sinaga | archiesinaga.github.io

SKILLS

Data & Querying: SQL (JOINs, CTEs, window functions), Python (pandas), Excel, Google Sheets (pivot tables, advanced formulas, data cleaning), MySQL, PostgreSQL (Supabase)
Visualization & BI: Tableau, Looker Studio, Power BI, Streamlit
Machine Learning: scikit-learn, XGBoost, TensorFlow, SHAP
Other: R, MongoDB, JavaScript, TypeScript, Next.js, Express.js, Git

WORK EXPERIENCE

Alpha Omega Learning Center (ALC) — **Palembang, ID**
Data Analyst — *Sep 2025 – Present*

- Tracked sign-up sources for 120 new students (Nov 2025) and found inbound Instagram inquiries converted at 50%+; ALC then shifted marketing toward social media.
- Designed a referral program (1 free month per 2 referrals) that brought in 10 new students.
- Built and maintain an LMS (Express.js, Supabase) tracking daily grades for 600+ students, launched in 1 month (Sep 2026).
- Integrated Xendit QR payments (JavaScript) into the LMS for 150 students, replacing manual QRIS payment checks.

Tutor, Mathematics & Physics (part-time) — *Jul 2024 – May 2025, Sep 2025 – Jun 2026*

- Helped ~15 Grade 12 students reach universities including ITS, Universitas Sriwijaya, USU, and UNESA by teaching UTBK/SNBT Mathematics and Physics to ~60 students a week and tracking every student's scores in a structured tracker.

PT Sumatera Prima Fiberboard — **Indralaya, ID**
IT Intern — *Jun 2025 – Aug 2025*

- Cut document approval time from ~1 week to 2–3 days across 8 divisions by building a Next.js and Tailwind CSS approval system end to end with one partner (backend, interface, testing).
- Replaced estimated truck departure and stop times with GPS-recorded ones for 10–20 trucks a day across 4 checkpoints by building a trip-tracking web app (Next.js, TypeScript, MongoDB, Leaflet) with route maps, timed stops, and speeds.

Bitlabs Academy, MSIB Batch 7 — **Online**
Data Analytics for Business Cohort — *Aug 2024 – Dec 2024*

- Found that the most-visited customers generated 13x more revenue per customer by analyzing 6 months of a rural-commerce startup's sales, visit, and customer data with SQL, Python, Excel, and Tableau.
- Cut sales route distance by up to 40% in simulated routes by proposing visit prioritization and shorter routes.

PROJECTS

MNC Media Cross-Platform Analytics | Python, MySQL, Looker Studio | GitHub | Dashboard — **Nov 2026**

- Built an end-to-end pipeline on 106,303 YouTube videos from 8 Indonesian TV channels and 46,649 Google Play reviews of 3 streaming apps, from API collection and Python cleaning to rule-based labels validated at 81–82% accuracy.
- Found MNC posted 62.2% of videos but earned 25.5% of views, and "paid but can't watch" drove 45.2% of Vision+ negative reviews, by testing 9 hypotheses in MySQL (window functions, CTEs) and a 5-page Looker Studio dashboard.

Credit Risk Model & Early Warning Dashboard | Python, XGBoost, SHAP, Streamlit | GitHub — **Oct 2026**

- Cut expected loss cost by 36.2% versus approving everyone by building a credit scoring model on 150,000 borrowers that reached 0.861 test AUC (XGBoost).
- Concentrated ~55% of defaults into the riskiest 10% of borrowers by designing A–E risk grades, shown in a Streamlit dashboard with SHAP-based risk reasons.

Undergraduate Thesis: Bacterial Image Classification | Python, TensorFlow, ConvNeXt, ResNet-50 | GitHub — **Apr 2026**

- Reached 99% accuracy and F1 on 2,033 microscope images of 33 bacteria species (DIBaS) by comparing ConvNeXt-Tiny with ResNet-50 (98.7%) across 6 training setups; deployed as a Streamlit app.

EDUCATION

Universitas Sriwijaya — **Indralaya, ID**
Bachelor of Computer Science (S.Kom.), Informatics, ***GPA 3.92/4.00*** — *Jun 2026*

- Relevant coursework: Database Systems, Probability & Statistics, Machine Learning, Big Data

LEADERSHIP EXPERIENCE

Student Executive Board (BEM), Universitas Sriwijaya — **Indralaya, ID**
Staff, Daily Executive Board — *Feb 2024 – Feb 2025*

- Ran a faculty Mobile Legends tournament (32 teams, 170 players) and coordinated Rector's Cup selection (~400 entrants).

Isport Unsri (faculty sports club) — **Indralaya, ID**
Head of Division — *Mar 2023 – Mar 2024*

- Initiated the annual FASILKOM Games (futsal, chess, volleyball, basketball) for ~150 participants.

CERTIFICATIONS & ACHIEVEMENTS

- Data Analytics for Business, Bitlabs (2024); Data Analysis (SQL, Tableau, Power BI, Excel), Udemy (Apr 2026)
- Third Best Presentation Team, Bitlabs MSIB Batch 7 (2024); UI/UX Finalist, Technology Euphoria (2024)
- Duolingo English Test 125 (Jul 2026); Indonesian (native)
